A-Data Overclocking Memory at VIP Computers

8th October 2008

Components distributor VIP Computers Benelux BV added the X, G and + Series of A-Data Overclocking Modules to its assortment. With these Overclocking Modules, we want to complete our line up for memory. A-Data offers a complete line up for Overclocking Memory, from enthusiasts to the real hardcore gamers.

X Series

VIP Computers offers extreme overclocking enthusiasts the A-Data X Series Modules which represent the ultimate overclocking performance. Each model is 100% hand-tested to select only the best for X Series Modules.

G Series

VIP also has A-Data memory for gaming enthusiasts. With the Vitesta G Series, you will have a great gaming experience with dual channel configuration and high capacity. The G Series will bring you into the next level of digital life that you never experienced before.

+ Series

With the A-Data Vitesta + Series, VIP Computers would like to meet the needs of desktop users who want to upgrade their PC with performance, reliability and quality. The + Series will be the best buy for entry power users in both performance and price.

VIP Computers has the X, G and + Series of A-Data Overclocking Modules available in 2 GB Kit (1 GB X2) and 4 GB (2 GB x2) Dual channel kit version.
