**PEAK microSDHC Series 8GB Ready to Go  
Including microSDHC, microSDHC Trio and microSDHC plus MS Pro Duo Adapter**

4<sup>th</sup> August 2008

PEAKHARDWARE International Co., Ltd. has launched its microSDHC series up to 8GB Class 6, the maximum capacity and the highest speed in today's market. The microSDHC series includes the microSDHC, the microSDHC Trio and the microSDHC plus MS Pro Duo adapter. PEAK's new series of flash memory devices provides users more fun and usability with their latest mobile devices.

The PEAK microSDHC 8GB Class 6, inserted in the MS Pro Duo adapter can function as a MS Pro Duo Card 8GB. The high speed Class 6 specification satisfies the requirements of video and audio file transfers, such as games, movies, music or images. Inserted in the microSDHC Trio adapter, it becomes an USB flash drive with SD interface which is easy to fit in any USB port or SDHC card slot. The multiple applications of the microSDHC card make better use of users' investment and have more flexibility.

"The technology of DRAM manufacturing has made great progress and nowadays we are in a new period of 50nm, the same form factor can store much more data. Moreover, the yield rate of DRAM devices becomes higher and higher and decreases also the cost per storage unit and makes the price acceptable," said Albert Tung, PEAK's Product Manager. "PEAK implements the leading technology to provide users a lower unit price but double capacity."

The PEAK microSDHC series is now available in capacities of 4GB and 8GB in Class 6 speed. All series of PEAK Flash Cards has a lifetime warranty and six categories of free portable applications available. These can be downloaded from the website: [www.peakhardware.com](http://www.peakhardware.com)
