## **PEAK Launches PEAK II 64GB 200X Flash Drive**

9<sup>th</sup> September 2009

PEAKHARDWARE International Co., Ltd. (PEAK), one of Taiwan's leading suppliers of flash memory, VGA cards and related computer peripherals, today announces its new PEAK II 64GB 200X Flash Drive. This latest Flash Drive series is made for users who require high speed data transfer. Its 64GB capacity can satisfy their need for storage of all types of large files, such as games, movies, music and other media formats.

With its fashionable design and its dual-layer metal and plastic housing, the PEAK II Flash Drive's case protects the drive from static discharge, vibration and minimizes external shocks. The plastic inner housing protects the drive from splashes and the silver grey metal housing with its distinctive etching is resistant to scratches. The PEAK II 200X series of Flash Drives has been enhanced for Windows ReadyBoost and is certified by Microsoft. It is expected to provide leading-edge performance and outstanding value in the competitive flash drive market.

Weighing just 15g and with its high-speed data transfer rate of up to 12 MB/sec in write and 31 MB/sec in read, the PEAK II 200X Flash Drive works with all Windows versions from Windows 98 to Windows 7 as well as with Macs and Linux. PEAK also provides six categories of free applications for users to download, including recovery, multimedia, office use, security, communication and general applications. Users can also partition the Flash Drive for better file management and can set it up to boot up the computer.

The PEAK II 200X Flash Drive supports USB 2.0 and is backwards-compatible with USB 1.1. It has a LED indicator to show drive activity. The PEAK II 200X Flash Drive is available in 4GB, 8GB, 16GB, 32GB and 64GB capacities. PEAK's other Flash Drive products include the PEAK III and PEAK IV series for the widest user choice.
